

Welcome to Maytag Aircraft

Maytag Aircraft Corporation is a U.S. Government services contractor, providing valuable and essential operations and maintenance services ranging from aircraft refueling and air terminal and ground handling to base operating support and weather observation and forecasting at multiple international and domestic locations.

The mission of Maytag Aircraft is to provide the best in contract services in support of U.S. Government operations worldwide, ensuring on time delivery to the highest quality standards at a fair and reasonable price.

Headquartered in Colorado Springs, Colorado, Maytag Aircraft services contracts that span the globe from Asia, Europe and the Mediterranean area to North and South America. Today, Maytag Aircraft is a major provider of aircraft refueling services and air terminal and ground handling services for the U.S. Department of Defense's Defense Energy Support Center and the Air Force Air Mobility Command. The Company often provides air terminal and ground handling support in foreign countries to dignitaries ranging from the President of the United States, U.S. Congressmen and Cabinet members, to numerous foreign diplomats.

Services:

- Refueling & Base Support
